

Camp 6: Aug. 29 – Sep. 2 (target grades 5-8)

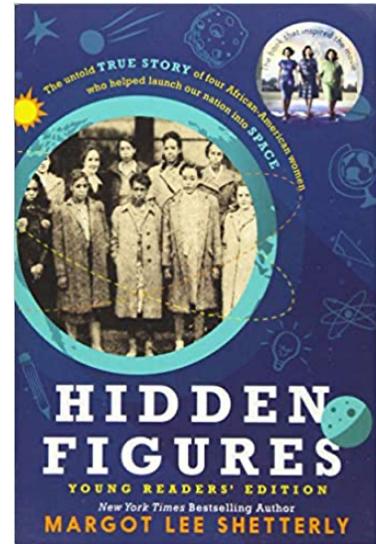

Hidden Figures - Young Readers Edition

By Margot Lee Shetterly

Learn how four pioneering African-American women made sure American astronauts could fly into space and then safely return home!

Before John Glenn orbited Earth, or Neil Armstrong walked on the moon, a group of dedicated female mathematicians known as “human computers” used pencils, slide rules, and adding machines to calculate the numbers that launched astronauts into space.

Dorothy Vaughan, Mary Jackson, Katherine Johnson, and Christine Darden lived through the Civil Rights era, the Space Race, and the movement for gender equality in the 1960s. Their work forever changed the face of NASA - and the country.

My son has attended Write on Q summer camp and has enjoyed it so much, he wants to join again the next one. The structure of reading technique used and analysis of the characters and events have all captivated him, helping him to organize his ideas and clearly depict them. Teacher’s dedication as well as strategy to introduce the story line and characters’ personalities stimulated his imagination and motivated his full engagement. We will enrol him again in the next camp. Strongly recommended!
